Professional Summary

Aspiring Data Science and Python Developer with hands-on experience in data analysis, machine learning, and data visualization. Skilled in Python, SQL, and data preprocessing techniques. Experienced in building predictive models and extracting insights from structured datasets. Passionate about solving real-world problems using data-driven approaches.

Projects

AI Driven Public Health Chatbot for Disease Awareness ·

Oct 2025 - Present

- Built an AI-driven chatbot using Python and NLP to provide disease-related information and preventive measures.
- Processed user queries using text preprocessing and intent recognition techniques.
- Integrated structured health data to generate meaningful and context-aware responses.
- Enhanced user experience through an intuitive interface and fast response system.

Student Trip Planner ·

Nov 2025 - Dec 2025

- Developed a Student Trip Planner focused on enabling budget-friendly travel by optimizing expenses for transportation, accommodation, and activities.
- Designed the system to suggest cost-effective travel plans, helping students explore destinations within limited budgets.
- Implemented features like budget tracking, expense estimation, and affordable itinerary generation to make trips more accessible.
- Aimed to simplify travel planning by providing smart recommendations that ensure maximum experience with minimum cost.
- Promotes economical and efficient journey planning, making travel possible even with limited financial resources.

Achievements

Smart India Hackathon · [Ministry of Education](#)

Sep 2025 - Oct 2025

Participated in Smart India Hackathon 2025, competing at the college level and successfully shortlisted among top teams.

Certificates

Data science with Machine Learning · [SRDT PVT LTD](#)

Sep 2025 - Sep 2025

Machine Learning Fundamentals · [L&T EduTech](#)

Jan 2025 - Jan 2025

Extra-Curricular Activities

Participated in Smart India Hackathon 2025 at the college level, contributing to the development of an AI-driven public health chatbot for disease awareness in a team-based environment.

Successfully participated in the India AI Impact Buildathon organized by HCL, focusing on real-world problem-solving using AI technologies.
